FACULTY

Kelly Fonner, MS, is a self-employed consultant in assistive technology. She has a BS in Special Education from Millersville University and an MS in Educational Technology & Rehabilitation/Special Education Technology from Johns Hopkins. Her continuing education and research is in the area of Adult Education at the University of Wisconsin–Milwaukee. She holds an ATACP Certificate of Learning from CSUN. Fonner has been a teacher, paraeducator, and AT specialist, and is currently a self-employed consultant in educational assistive technology. She has worked for a statewide AT project and has been an instructor in university courses. Since 1986, Fonner has presented at schools, conferences, and families in 48 states and internationally in Australia, Canada, and South Africa. She speaks on AT topics including augmentative communication, computer access, electronic literacy, AT assessment, and implementation strategies. Each year, she works with approximately 50 school-based teams supporting students and the implementation of AAC and electronic literacy implementation in the classroom. Fonner is also the daughter of a person with an acquired physical disability, the sister-in-law of a woman with cerebral palsy, and the cousin of individuals with a teenager with Asperger's.
