Collaboration on the Pediatric ICU Rehab Team

FACULTY

Hallie Lenker, PT, DPT, is a pediatric physical therapist and pediatric rehab team coordinator at The Johns Hopkins Childrens Center (JHCC), providing rehabilitation across the continuity of care in both the acute and outpatient setting. Lenker works closely with the PICU UP! program in the pediatric ICU and pediatric oncology inpatient and outpatient program.

Yun Kim, MS, OTR/L, is an occupational therapist at The Johns Hopkins Children's Center in Baltimore, Maryland. Initially, she worked on the neurology unit and adult ICUs at The Johns Hopkins Hospital. She transferred to pediatric service in October 2012, when she began focusing on neonatal and pediatric intensive care. She is the pediatric rehab clinical specialist and one of the co-founders of The Johns Hopkins PICU Up! program.

Panayiota Senekki-Florent, PhD, CCC-SLP, BCS-S, is a pediatric speech-language pathologist at Johns Hopkins Hospital and an assistant professor in the Department of Physical Medicine and Rehabilitation. She is a Board Certified Specialist in Swallowing and Swallowing Disorders with more than 20 years of experience serving patients with complex medical conditions. Senekki-Florent serves throughout the Johns Hopkins Children’s Center, primarily serving critical care populations in the NICU, PICU, and PCICU. She is the director of the Pediatric Clinical Fellowship Program at Johns Hopkins, and her research interests focus on the epidemiology of dysphagia in preterm infants.
