Collaboration on the Pediatric ICU Rehab Team

INTRODUCTION
This session outlines the members, roles, and responsibilities of the pediatric intensive care unit (ICU) rehab team and describes areas of collaborative and independent decision-making to maximize the rehabilitative outcomes for pediatric patients across the continuum in the ICU.

This course is a recorded session from the 2021 online conference “Maximizing Outcomes for Medically Complex Patients of All Ages.”

LEARNING OUTCOMES
You will be able to:
• identify the key members and roles on the rehabilitation team
• describe the individual treatment strategies used by each team member across the ICU continuum
• explain how the multidisciplinary team collaborates to maximize rehabilitative outcomes

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 45 minutes
Online conference dates: March 17–29, 2021; August 4–16, 2021
End date: March 17, 2026

To earn continuing education credit, you must complete the learning assessment on or before March 17, 2026.

This course is offered for 0.05 ASHA CEUs (Intermediate level, Professional area).
