

FACULTY

Sapna R. Kudchadkar, MD, PhD, FCCM, is an associate professor of anesthesiology and critical care medicine, pediatrics, and physical medicine and rehabilitation at The Johns Hopkins Hospital. Kudchadkar completed residencies in pediatrics and anesthesiology, followed by fellowships in both pediatric critical care and pediatric anesthesiology at Johns Hopkins. After clinical training, she completed a PhD in clinical investigation at The Johns Hopkins University Bloomberg School of Public Health. Kudchadkar's clinical and research focus is functional outcomes after pediatric critical illness and major surgery and the interplay of sedation optimization, sleep promotion, delirium prevention, and early mobilization in pediatric ICU care. She is the founder and director of The Johns Hopkins PICU Up! Program, which has been implemented in pediatric ICUs internationally, and she is also the lead PI for PARK-PICU study (Prevalence of Acute Rehabilitation for Kids in the PICU), which includes more than 200 sites across North America, Europe, Australia/New Zealand, and Brazil. Kudchadkar is the associate vice chair for research in anesthesiology and critical care medicine and the director of pediatric critical care research at Johns Hopkins. In March 2020, Kudchadkar experienced COVID-19 illness herself and after her recovery was deployed to the adult COVID-19 step-down unit.
