FACULTY

Holly Storkel, PhD, CCC-SLP, is a Professor in the Department of Speech-Language-Hearing: Sciences and Disorders, an Associate Dean in the College of Liberal Arts & Sciences, and the Vice Provost for Assessment & Program Development at the University of Kansas in Lawrence. Her research focuses on how children learn the sounds and words of a language and how this understanding of learning can be applied to the development of effective clinical treatments. Storkel’s prior clinical work was in a private practice setting with preschool and school-age children with developmental language disorders or speech sound disorders. Storkel conducted research as an undergraduate and postdoctoral fellow with Dr. Judith Gierut, one of the main developers of the complexity approach to treatment of speech sound disorders. Storkel also co-administers a Facebook group (https://www.facebook.com/groups/clinicalresearchslps/) focused on clinical research for SLPs.

Financial Disclosures:
