Effective, Engaging AAC Instruction

INTRODUCTION

This session explores tools, strategies, and a framework to enhance engagement, learning, and generalization for students who use AAC. The speakers discuss various ways to support students’ learning and communication with peers, including using social communication games, combining core vocabulary and literacy, and determining authentic purposes.

This course is a recorded session from the 2021 online conference “Expanding AAC: Accessible Strategies for Functional Communication.”

LEARNING OUTCOMES

You will be able to:

• list options for robust AAC systems and discuss the process of selecting one that determine targets for AAC intervention that are both authentic and important for learners
• implement at least one light-tech and one high-tech tool to support learning and enhance engagement
• identify one strategy from each of the components of the RMP-GO framework to explicitly teach and generalize language skills
