FACULTY

Gail M. Van Tatenhove, MS, CCC-SLP, is a speech-language pathologist with more than 40 years of experience working with children and adults who use AAC systems. Van Tatenhove has had a diverse career focused on AAC. First, she worked in a special school that served children, age 3 to 22, who had significant, multiple disabilities. Then, she was on a statewide AAC assessment team that served students across the state of Florida. Van Tatenhove has also consulted with Semantic Compaction Systems on development of Minspeak® programs, language intervention strategies, and program development for the Pittsburgh AAC Language Seminar Series. Since 1988, Van Tatenhove has maintained a private practice, providing therapy services with children and adults using AAC systems. Van Tatenhove wrote a state grant to develop a loaner bank of AAC devices, was involved with several ASHA projects on AAC, has been a contributing author for several AAC textbooks, was a board member of USSAAC, served multiple times on the coordinating committee for ASHA Special Interest Group 12, served as the professional development manager for ASHA SIG 12, and is an ASHA Fellow. Van Tatenhove continues to support the field of AAC through speaking engagements, ongoing AAC projects, and development of intervention materials.

Faye Warren, BFA (contributor), graduated from Saint Andrews University in North Carolina with a Bachelor of Fine Arts degree in combination with English and Creative Writing in 2004. Warren works as a Communication Coach and Assistive Technology Teaching Consultant for Orange County Public Schools, working with students who have different types of communication devices on social skills, communication skills, self-esteem skills, problem-solving skills, self-confidence skills, how to structure sentences on their communication devices, and so on. Furthermore, Warren gives lectures to teachers and speech-language pathology students to teach their clients how to communicate properly on their communication devices and gives suggestions on how to teach students with disabilities like any other students without disabilities. Warren also presents on disability awareness in regular education classes and absolutely loves making a difference in people’s lives and improving the quality of life for people with and without disabilities.
