FACULTY

Brooke Lang, MA, CCC-SLP, is a speech-language pathologist working in the Pittsburgh, PA, area, specializing in the area of aphasia and apraxia treatment. Lang has worked at the VA Pittsburgh Healthcare System for more than 10 years, serving as a lead clinician in its unique intensive aphasia program (PIRATE) as well as a part-time research assistant, working under some of the most well-known aphasia research professionals and aphasiologists in the field. In March 2019, Lang started a practice, Integrative Reconnective Aphasia Therapy, serving individuals with apraxia and aphasia. The practice develops personalized treatment plans and provides innovative aphasia intervention techniques via telepractice that go beyond the traditional approaches, applying principles of neuroplasticity and evidence-based practice. Lang recently published a best-selling book, After Aphasia: A Guide to Rebuilding Your Communication After a Stroke, a resource for individuals living with aphasia, caregivers, and medical professionals.
