The Interrelationship Between Policy and Clinical Practice

INTRODUCTION

This session explores how policy and clinical practice impact each other. The presenters discuss the making of public policy, and how it is interpreted and implemented into clinical practice in health care settings. The presenters also discuss the flip side—how clinical practice itself informs advocacy for shaping future public policy. Learners can think about their professional roles in interpreting policy and advocating for change.

This course is a recorded session from the 2021 online conference “Empowered SLPs in Health Care: Breaking Barriers and Shaping Solutions.”

LEARNING OUTCOMES

You will be able to:
- interpret public policy regulations for the purpose of clinical practice
- advocate for future public policy changes

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 40 minutes
Online conference dates: June 2–14, 2021
End date: June 28, 2026

To earn continuing education credit, you must complete the learning assessment on or before June 28, 2026.

This course is offered for 0.05 ASHA CEUs (Intermediate level, Related area).
