Business Costs in Health Care: Labor, Productivity, and Impact on SLPs

INTRODUCTION

This panel discussion, featuring managers/administrators from skilled nursing facility/home health and private practice health care settings, explores productivity expectations within the framework of the business of health care, recognizing that the three largest costs for any health care business are labor management, infrastructure management, and health care reimbursement.

This course is a recorded session from the 2021 online conference “Empowered SLPs in Health Care: Breaking Barriers and Shaping Solutions.”

LEARNING OUTCOMES

You will be able to:

- explain labor costs and cost management efficiencies within health care businesses
- describe health care labor cost management and its impact on clinical practice
