Strengths-Based Approaches to Promoting Engagement in School-Age Children With ASD

INTRODUCTION
This webinar will help fill up your toolbox of strategies to help children with autism spectrum disorder engage in learning and social interactions. The webinar will share practical, visual-based tools that SLPs who work with school-age children with autism can use to build on strengths and promote participation, engagement, and relationships.

LEARNING OUTCOMES
You will be able to:
- Identify and describe three visual-based strategies to apply in diverse settings with children with autism
- Utilize multiple tools to analyze a case study of a child with autism, focusing on strengths to promote participation and engagement with different communication partners
- Describe five considerations for building relationships with children with autism
