FACULTY

Gayla L. Poling, PhD, CCC-A, is the Director of Diagnostic Audiology Research at Mayo Clinic (Rochester, Minn.) and an Assistant Professor in the Mayo Clinic College of Medicine. She studied Audiology and Hearing Sciences at The Ohio State University before pursuing postdoctoral training focused on translational research at the Medical University of South Carolina and Northwestern University. Her clinical practice and research interest is on developing diagnostic tools focused on the early detection and prevention of hearing loss due to aging, noise, and other environmental factors (ototoxicity).
