FACULTY

Kristen M. Allison, PhD, CCC-SLP, is an assistant professor in the Communication Sciences & Disorders Department and director of the Speech Motor Impairment and Learning Lab at Northeastern University. Her research focuses on improving assessment and treatment of dysarthria in children.

Financial Disclosures
- Internal COVID-19 seed grant from Northeastern University
- Financial compensation from ASHA for this presentation

Nonfinancial Disclosures
- None

Jenya Iuzzini-Seigel, PhD, CCC-SLP, is Assistant Professor and Director of the Communication, Movement, and Learning Lab at Marquette University. Her research focuses on care of the whole child, with a specific interest in assessment and treatment of children with childhood apraxia of speech, dysarthria, and developmental language disorder. Recent research has focused on mechanisms that underlie multiple system deficits, such as procedural learning deficits. Other work investigates the role of exercise on cognitive-linguistic and physical performance in children with and without communication impairments.

Financial Disclosures
- Salaried employee at Marquette University
- Grant funding from OUAT foundation and Marquette University
- Financial compensation from ASHA for this presentation

Nonfinancial Disclosures
- Professional Advisory Council at Apraxia Kids
Ruth B. Stoeckel, PhD, CCC-SLP, is recently retired from Mayo Clinic. She has experience in a variety of settings, with particular interest in pediatric motor speech disorders and learning difficulties associated with history of early speech-language impairment. Dr. Stoeckel has participated in research that has been published in peer-reviewed journals and has given presentations both nationally and internationally.

Financial Disclosures
- MedBridge revenue share
- Speaker fees from Once Upon a Time Foundation

Nonfinancial Disclosures
- Professional Advisory Council member for Apraxia Kids
