Assessment and Treatment of Pediatric Dysarthria

INTRODUCTION

This webinar introduces practical clinical decision-making frameworks for evaluating and treating children with dysarthria and illustrates their application through clinical case examples. The course strives to increase SLPs’ confidence in evaluating and treating children with dysarthria.

LEARNING OUTCOMES

You will be able to:

• Identify speech features associated with dysarthria by listening to speech samples of children
• Apply use of a motor speech assessment framework for describing subsystem impairments and distinguishing between dysarthria and childhood apraxia of speech in children
• Objectively measure intelligibility of children with dysarthria
• Explain the influence of all speech subsystems on speech production and intelligibility in children
• Write patient-centered goals focused on maximizing communication function and intelligibility for children with dysarthria

PROGRAM HISTORY and IMPORTANT INFORMATION

Live webinar: April 13, 2022
3:00–5:00 p.m. Eastern time
(2:00 p.m. Central time, 1:00 p.m. Mountain time, noon Pacific time)

On-demand webinar: April 15, 2022–April 15, 2027

To earn continuing education credit, you must complete and submit the learning assessment within 5 days of watching the webinar, or April 15, 2027, whichever comes first.
