FACULTY

Samira Anderson, PhD, CCC-A, is an assistant professor in the Department of Hearing and Speech Sciences at the University of Maryland. After practicing as a clinical audiologist for 26 years, she decided to pursue a doctorate in auditory neuroscience at Northwestern University to better understand the hearing difficulties experienced by her patients. She obtained her PhD in December 2012 and joined the faculty at the University of Maryland in 2013. Anderson's research focuses on the effects of development, aging, and hearing loss on central auditory processing and neuroplasticity using electrophysiology as her primary assessment tool.

Financial Disclosures:
- Assistant professor at the University of Maryland
- Grant funding from National Institutes of Health: National Institute on Deafness and Other Communication Disorders and National Institute on Aging
- Financial compensation from ASHA for this presentation

Nonfinancial Disclosures:
- No nonfinancial relationships to the content of this presentation
