FACULTY

Jaynee A. Handelsman, PhD, CCC-A, is the director of pediatric audiology in the CS Mott Children’s Hospital and a clinical assistant professor in the Department of Otolaryngology–Head and Neck Surgery in the University of Michigan Health System. Her primary clinical, teaching, and research areas of focus have included the assessment and management of patients with dizziness and balance disorders, as well as the impact of potentially ototoxic medications on auditory and vestibular system function. She is also involved in the identification and management of hearing loss and vestibular function loss in infants and young children, as well as in professional ethics and conflicts of interest. Handelsman is an ASHA Fellow and past president of the ASHA Board of Directors (2016). She has also served ASHA in many other board, committee, and volunteer roles. Handelsman received her bachelor’s degree from the University of Michigan and her master’s and doctoral degrees from the University of Kansas.

Financial Disclosures
- Employed by University of Michigan Medicine
- Faculty position on the Michigan Leadership Education in Neurodevelopmental Disabilities (Mi-LEND)
- Financial compensation from ASHA for this presentation

Nonfinancial Disclosures
- ASHA member
- ASHA Board of Directors President in 2016

Lynn Driver, MA, MS, CCC-SLP, has been a practicing speech-language pathologist for 35 years, with the last 30 of those in pediatric speech-language pathology at the University of Michigan Medical Center. During her tenure there, she has had the opportunity to work with a broad range of pediatric communication disorders, both acquired and developmental. Driver developed expertise in the assessment of autism through her participation for the past 15 years in multidisciplinary evaluation clinics with psychology and neurology. She also supervised colleagues in the development of an evidenced-based autism treatment program. Driver currently spends part of her time in the Department of Pediatric Otoloaryngology, working closely with physicians and audiologists.
