Cochlear Implant Candidacy: Predictors of Success

INTRODUCTION

This session discusses the current parameters for identifying cochlear implant candidates and provides an update on cochlear implantation that aims to clarify misconceptions that may influence referral patterns. The speaker points out resources that clinicians can use to offer comprehensive, authoritative information on cochlear implantation candidacy to their patients.

This course is a recorded session from the 2019 online conference “Audiology 2019: Cochlear Implants.”

LEARNING OUTCOMES

You will be able to:
- describe best practices for identifying candidates for cochlear implant evaluation as well as barriers or misconceptions that may be preventing accurate referrals
- list the potential benefits of early and accurate identification of cochlear implant candidates, including those with residual hearing
- identify appropriate candidates for cochlear implant evaluation

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 70 minutes
Online conference dates: September 11–23, 2019
End date: September 11, 2024

To earn continuing education credit, you must complete the learning assessment on or before September 11, 2024.

This course is offered for 0.1 ASHA CEUs (Intermediate level, Professional area).
