Shoot for the Moon: Measuring Outcomes for Cochlear Implant Recipients

INTRODUCTION

There is not much consensus or standardization in the practices professionals use to measure outcomes for cochlear implant (CI) recipients. This session examines outcome measurement, providing clear and concise recommendations for assessment of outcomes in adult and pediatric CI recipients.

This course is a recorded session from the 2019 online conference “Audiology 2019: Cochlear Implants.”

LEARNING OUTCOMES

You will be able to:
- Identify the components involved in a comprehensive assessment of outcomes for an adult CI recipient
- Identify the components involved in the assessment of pediatric CI recipients

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 101 minutes
Online conference dates: September 11–23, 2019
End date: September 11, 2024

To earn continuing education credit, you must complete the learning assessment on or before September 11, 2024.

This course is offered for 0.15 ASHA CEUs (Intermediate level, Professional area).
