FACULTY

Caroline Arnedt, AuD, is a cochlear implant audiologist at the University of Michigan in Ann Arbor. She has worked with pediatric and adult cochlear implant patients for more than 14 years. She coordinates a multi-site, longitudinal clinical research study looking at factors affecting performance of pediatric cochlear implant patients. She has previously served as a research audiology consultant for Kresge Hearing Research Institute at the University of Michigan Medical School. She has presented nationally on various topics related to cochlear implants, pediatric audiology, and auditory neuropathy.
