Auditory Neuropathy and Cochlear Implants

INTRODUCTION
This session will discuss listening and spoken language skills assessments for accurate diagnosis of auditory neuropathy in children as well as various treatment options and considerations, including cochlear implantation.

This course is a recorded session from the 2019 online conference “Audiology 2019: Cochlear Implants.”

LEARNING OUTCOMES
You will be able to:
• describe how auditory neuropathy is diagnosed
• describe the difference between intelligibility and audibility for listening and spoken language development
• identify two red flags that show a child is not receiving enough auditory information

PROGRAM HISTORY and IMPORTANT INFORMATION
Recording length: 67 minutes
Online conference dates: September 11–23, 2019
End date: September 11, 2024

To earn continuing education credit, you must complete the learning assessment on or before September 11, 2024.

This course is offered for 0.1 ASHA CEUs (Intermediate level, Professional area).
