Bilateral and Bimodal Hearing With Cochlear Implants

INTRODUCTION

Many individuals with unilateral cochlear implants are good candidates for a second device. This session discusses some of the roadblocks to sequential or simultaneous cochlear implantation and how to overcome them.

This course is a recorded session from the 2019 online conference “Audiology 2019: Cochlear Implants.”

LEARNING OUTCOMES

You will be able to:

- describe a bimodal fitting protocol
- describe the evaluation process
- describe an appropriate candidate for a sequential cochlear implant

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 64 minutes
Online conference dates: September 11–23, 2019
End date: September 11, 2024

To earn continuing education credit, you must complete the learning assessment on or before September 11, 2024.

This course is offered for 0.1 ASHA CEUs (Intermediate level, Professional area).
