Helping School Personnel Support Students With Cochlear Implants

FACULTY

Mary O’Leary Kane, MA, CCC-SLP, earned her bachelor’s degree from Towson State University and her master’s degree from the University of Northern Colorado. She has been a licensed and ASHA-certified speech-language pathologist since 1996. As a member of Greater Baltimore Medical Center’s Cochlear Implant Team, she provides aural rehabilitation therapy for children and adults to support listening development, demonstrate best use of CI technology, and track progress of oral communication skills. Kane has 20 years of specialized experience in a variety of settings, including hospital, private practice, and schools. She has contributed to many research articles and academic materials related to the field of hearing loss and rehabilitation. She brings with her an enthusiasm to help children and adults through the cochlear implant process, bringing sound to life in meaningful therapy sessions. Her goal is to educate patients and maximize their use of cochlear implant technology.
