Pediatric Brain Tumors: Types, Treatments, and Neurocognitive Outcomes

INTRODUCTION

This session discusses what SLPs need to know about pediatric brain tumors – including the most common types of tumors, treatments, and neurocognitive outcomes – to best serve children with this diagnosis.

This course is a recorded session from the 2019 online conference “Cancer Care: Enhancing Communication, Swallowing, and Quality of Life.”

LEARNING OUTCOMES

You will be able to:

- identify the most common types of pediatric brain tumors, including common locations within the brain
- describe types of treatment and possible impacts on brain-behavior functions

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 58 minutes
Online conference dates: March 20–April 1, 2019; August 7–19, 2019
End date: March 20, 2024

To earn continuing education credit, you must complete the learning assessment on or before March 20, 2024.

This course is offered for 0.1 ASHA CEUs (Intermediate level, Professional area).
