Identification and Rehabilitation of Post-Chemotherapy Cognitive Impairments

INTRODUCTION

This session identifies cognitive deficits that frequently result from chemotherapy and discusses how to evaluate and treat patients suffering from these deficits.

This course is a recorded session from the 2019 online conference “Cancer Care: Enhancing Communication, Swallowing, and Quality of Life.”

LEARNING OUTCOMES

You will be able to:

- identify neurological complications of chemotherapy
- set appropriate goals for cognitive rehabilitation for patients with cognitive deficits resulting from chemotherapy
