Diet Texture Modifications for Adults With Dysphagia: Improving Swallow Safety and Quality of Life

FACULTY

Luis F. Riquelme, PhD, CCC-SLP, BCS-S, is an associate professor at New York Medical College in Valhalla, New York, and director of the Center for Swallowing and Speech-Language Pathology at NewYork-Presbyterian Brooklyn Methodist Hospital. He completed his PhD at The Graduate Center at CUNY. Riquelme has authored articles on dysphagia, cultural competence/sensitivity, leadership, and quality improvement. He has presented locally, nationally, and internationally. Riquelme is a Board-Certified Specialist in Swallowing & Swallowing Disorders and a member of the Dysphagia Research Society. He has served on several local, national, and international boards and committees. He is on the Board of Directors of the International Dysphagia Diet Standardisation Initiative (IDDSI) and past chair of the American Board on Swallowing & Swallowing Disorders. Riquelme became an ASHA Fellow in 2009 and in 2006 he received ASHA’s Certificate of Recognition for Special Contributions in Multicultural Affairs. His current research interests include the physiology of swallowing in older adults, the role of decompensation on swallow function in the elderly, pill swallowing in adults, and the impact of culture on clinical interactions.
