

FACULTY

Kim Murza, PhD, CCC-SLP, received her doctorate in Education: Communication Sciences and Disorders from the University of Central Florida, where she specialized in language and literacy with a focus on autism spectrum disorder. She is currently an associate professor in the Department of Audiology and Speech-Language Sciences at the University of Northern Colorado. Murza has worked privately and in the public school system as a speech-language pathologist with children and adolescents in pre-school through high school and more recently with adults with autism spectrum disorder. She is currently the University of Northern Colorado Graduate Coordinator and Scottish Rite Program Director. She also serves as a member of ASHA's School Issues Advisory Board and as a member of the Colorado Department of Education Speech-Language Advisory Committee. Her main research area is the development, delivery, and evaluation of high-quality professional learning in the schools. Additional research interests include assessment and intervention for individuals with autism spectrum disorder, systematic review and meta-analysis, scholarship of teaching and learning, strategic learning, inference generation, and disciplinary literacy.
