Janalene Jacobson, AuD, CCC-A, earned a master's degree in Communication Disorders with an emphasis in Audiology from the University of South Dakota in 1999 and an Audiology clinical doctorate from the University of Florida in 2007. For 5 years, she worked for Sonus USA, where clinic responsibilities included providing diagnostic services to ENT physicians and working with hearing aids. She organized an audiologic rehabilitation program that was used in clinics across North America. In 2004, she accepted a position with Mayo Clinic in Rochester, Minnesota. Clinical responsibilities have included evaluations of newborns in the neonatal intensive care unit, inpatient hospital consultations, auditory brainstem response testing, diagnostic testing of all ages, hearing aid and bone conduction device fittings for all ages, and group audiologic rehabilitation. She also performs administrative and supervisory roles within the division of Audiology and School of Health Sciences.
