

FACULTY

Glendora Tremper, EdD, CCC-SLP, has been an SLP and a special education administrator for 25 years. She has worked in the traditional and charter school settings ensuring the needs and legal rights of all students are met. She has provided direct services and educational/parent sessions in person and virtually throughout her career. She is co-author of the research study, *Telemedicine as a Means of Effective Speech Evaluation for Cleft Palate Patients* (April 2012). Tremper is presently the Special Education Coordinator at Springs Charter Schools (pop.

10,440), supervising all related service providers across the network. Additionally, she is the School Board President for Mueller Charter School and was a school board member for Chula Vista Elementary School District in San Diego County. Outside of the educational field, Tremper volunteers with, and is on the board of, various nonprofit organizations focused on providing care for children with cleft palate and craniofacial anomalies internationally. She has presented nationally and internationally at conferences in Mexico, San Diego, and virtually.
