

FACULTY

Jennifer Black, MA, CCC-SLP, IMH-E, has been a pediatric speech-language pathologist for more than 20 years. She has worked in schools, early intervention programs, and private practice offering consultative and direct services that are neurobiologically and culturally sensitive. Black has additional credentials in infant and early childhood mental health from the University of Massachusetts-Boston, reflective supervision and facilitation from the Parent-Infant Child Institute, and the Neurosequential Model of Therapeutics from the ChildTrauma Academy. Black is also Hanen Centre certified and DIR trained.
