
Recognizing and Disrupting Racial Bias in Audiologic Clinical Practice (SIG 6)

INTRODUCTION

In this webinar, Nicholas Stanley, an audiologist, and Samuel Bradley, a social worker, will discuss how the concepts of cultural mindfulness, humility, and rigor can help clinicians evaluate their own explicit and implicit racial biases and identify practices that establish a more effective and inclusive clinical environment. The webinar will explore strategies that lead to more equitable patient access and outcomes. Additionally, the presenters will model and promote healthy conversations surrounding race and its influence on everyday interactions.

This webinar is part of the SIGNature Series, a collection of webinars developed by volunteers from ASHA's Special Interest Groups, who share practical, evidence-based suggestions and solutions based on their in-depth knowledge, clinical experiences, and passion for their specialty areas. This webinar was developed by SIG 6: Hearing and Hearing Disorders: Research and Diagnostics.

LEARNING OUTCOMES

You will be able to:

- Define key concepts of cultural mindfulness, humility, and rigor
- Describe how racism impacts patient access and outcomes
- Use language and concepts that enable healthy discussion about race and racism
- Apply cultural mindfulness to clinical practice

PROGRAM HISTORY and IMPORTANT INFORMATION

Live webinar: Tuesday, November 10, 2020

12:00–1:00 p.m. Eastern time

(11:00 a.m. Central time, 10:00 a.m. Mountain time, 9:00 a.m. Pacific time)

On-demand webinar: November 12, 2020–November 10, 2025

To earn continuing education credit, you must complete and submit the learning assessment **within 5 days** of watching the webinar, or **before November 10, 2025**, whichever comes first.

ASHA Professional Development is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

This course is offered for 0.1 ASHA CEUs (Intermediate level, Related area).
