## Updates in Advocacy & Billing for Dysphagia Management (SIG 13)

---

### INTRODUCTION

Due to the rapidly changing climate in dysphagia management, adhering to recent changes in billing and documentation standards and procedures can be challenging for SLPs. In this course, speakers will identify common pitfalls and discuss strategies to meet expectations, so clinicians can avoid unethical decisions, prevent dings, and maximize local coverage for dysphagia reimbursement. The speakers will also illustrate how advocating for accurate representation in SLP billing and documentation supports clinician competency and patient outcomes.

*This webinar is part of the SIGnature Series, a collection of courses developed by volunteers from ASHA's Special Interest Groups, who share practical, evidence-based suggestions and solutions based on their in-depth knowledge, clinical experiences, and passion for their specialty areas. This webinar was developed by SIG 13: Swallowing and Swallowing Disorders (Dysphagia).*

### LEARNING OUTCOMES

You will be able to:

- Identify common pitfalls in billing and documentation in dysphagia management
- Discuss strategies to meet expectations in billing and documentation in dysphagia management
- Describe recent updates to billing and documentation in dysphagia management

---

### PROGRAM HISTORY and IMPORTANT INFORMATION
