
Supporting End-of-Life Care Conversations: Special Considerations for COVID-19 (SIG 15)

INTRODUCTION

SLPs who work with adults of advanced age regularly contribute to conversations with individuals, their families, and members of their care teams to ensure compassionate, patient-centered end-of-life care planning. This webinar will discuss the SLP's important role in facilitating proper documentation and preserving patient autonomy, focusing on special considerations related to the COVID-19 pandemic.

This webinar is part of the SIGnature Series, a collection of webinars developed by volunteers from ASHA's Special Interest Groups, who share practical, evidence-based suggestions and solutions based on their in-depth knowledge, clinical experiences, and passion for their specialty areas. This webinar was developed by SIG 15: Gerontology.

LEARNING OUTCOMES

You will be able to:

- Differentiate between good and poor uses of language when facilitating end-of-life care discussions
- Integrate end-of-life care discussions into your practice in appropriate clinical situations
- Discuss the key components of end-of-life care discussions and documentation, with specific focus on impacts of COVID-19

PROGRAM HISTORY and IMPORTANT INFORMATION

Live webinar: Thursday, November 12, 2020

4:00–5:00 p.m. Eastern time

(3:00 p.m. Central time, 2:00 p.m. Mountain time, 1:00 p.m. Pacific time)

On-demand webinar: November 14, 2020–November 12, 2025

To earn continuing education credit, you must complete and submit the learning assessment **within 5 days** of watching the webinar, or **before November 12, 2025**, whichever comes first.

ASHA Professional Development is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

This course is offered for 0.1 ASHA CEUs (Intermediate level, Professional area).
