

## FACULTY

---

**Anna Marie Jilla, AuD, PhD**, is a postdoctoral research fellow in the Cochlear Center for Hearing and Public Health at Johns Hopkins University. Her current research is in health economics, implementation science, and health services research. She has also made scientific contributions in the area of audiologic rehabilitation, specifically for hearing aid uptake, treatment adherence, and outcomes measurement. She currently serves as the Co-Chair of the Coding and Reimbursement Committee for the American Academy of Audiology.

### *Financial Disclosures:*

- Financial compensation from ASHA for this presentation

### *Nonfinancial Disclosures:*

- Co-Chair of the Coding and Reimbursement Committee for the American Academy of Audiology

**Carole E. Johnson, PhD, AuD, CCC-A**, is a professor in the Department of Communication Sciences and Disorders at the University of Oklahoma Health Sciences Center. She has over 35 years experience as a rehabilitative audiologist and is director of the Hearing Evaluation, Rehabilitation, and Outcomes (HERO) Laboratory. She is currently conducting a 3-year randomized clinical trial on the benefits of entry-level digital hearing aids for patients with low incomes, funded by the Oklahoma Center for the Advancement of Sciences and Technology. She has published four textbooks and 80 referred articles, and made over 150 presentations at professional meetings around the world.
