An Audiologist's Approach to Chronic Dizziness

INTRODUCTION

This session will examine the diagnosis and treatment of persistent postural-perceptual dizziness (PPPD). The session will explore the recently defined criteria for the presentation and symptoms of the disorder as well as describe current and emerging research that is helping clinicians and researchers better understand it. The speaker will also discuss how chronic co-morbid disorders such as migraine and Meniere’s disease should be factored into the treatment of this disorder.

This course is a recorded session from the 2020 Audiology Online Conference “Evolving Clinical Practice: Present and Future Considerations.”

LEARNING OUTCOMES
You will be able to:
- discuss the international criterion for identifying PPPD
- discuss the role of audiology for treating PPPD
- discuss the role of physical therapy for treating PPPD

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 48 minutes
Online conference dates: November 11–23, 2020
End date: November 11, 2025

To earn continuing education credit, you must complete the learning assessment on or before November 11, 2025.

This course is offered for 0.05 ASHA CEUs (Intermediate level, Professional area).
