FACULTY

Jennifer P. Lundine, PhD, CCC-SLP, BC-ANCDS, is an assistant professor in the Department of Speech and Hearing Science at The Ohio State University and a research scientist at Nationwide Children’s Hospital in Columbus, Ohio. She has more than a decade of experience working as a speech-language pathologist on a pediatric rehabilitation unit. Her clinical, teaching, and research interests include cognitive-communication disorders associated with complex pediatric medical conditions, such as acquired brain injury (ABI). Specifically, her research focuses on improving gaps in access to and utilization of services designed to support children and adolescents with ABI and identifying specific approaches that would improve assessment and treatment practices following pediatric ABI.
