FACULTY

Ann Glang, PhD, is a Research Professor and Director of CBIRT. Since 1987, she has secured and directed or co-directed more than 30 federally funded research projects focused on individuals with TBI, including both descriptive and intervention research projects. Her research interests include strategies and supports in the school setting for children and adolescents with brain injuries, teacher training, and childhood brain injury prevention. She has published numerous articles in refereed journals, edited two books on her work with children with TBI, and co-authored five manuals for educators serving children with TBI.

- Grant funding from Centers for Disease Control and Prevention and Oregon Department of Education
- Financial compensation from ASHA for this presentation

Nonfinancial Disclosures:

- No nonfinancial relationships to disclose

Melissa McCart, EdD, is the director of the Oregon TBI Teams and works in the field of TBI research at the Center on Brain Injury Research and Training (CBIRT) at the University of Oregon. She earned her doctorate in Educational Methodology, Policy and Leadership, her MS in behavioral disorders and applied behavior analysis, and her administrator’s licenses from the University of Oregon. Prior to joining the CBIRT team, McCart spent 7 years as a school administrator, 2 years as a behavioral consultant, and 8 years as a special education teacher to students with emotional/behavioral disorders. She has also worked extensively with at-risk children and families.
