

FACULTY

Michelle Ranae Wild, MA, is a professor at Coastline Community College and has taught in Coastline's Acquired Brain Injury Program for more than 30 years. In addition, she is the Founder/CEO of Brain Education Strategies and Technology (BEST). She recently released the BEST Suite app to help with executive function challenges and has created a series of online app trainings for individuals with cognitive challenges, their caregivers, and the professionals who work with them. Her materials are in use in various schools, rehabilitation facilities, VA hospitals, and military hospitals across the country.

Financial Disclosures:

- Financial compensation from ASHA for this presentation
- CEO of nonprofit Brain Education Strategies and Technology (BEST)

Nonfinancial Disclosures:

- Presentation will refer to an app developed by BEST in addition to discussing other apps
