Veterans With TBI: Engaging the Health Care Community to Improve Outcomes

INTRODUCTION

This session explores treatment plans and outcomes for combat-wounded veterans. The speakers share personal and professional experiences working with veterans with TBI, including considerations related to the variability of symptoms across individuals as well the unique experiences of combat veterans and their families.

This course is a recorded session from the 2020 online conference “Maximizing Functional Outcomes for Individuals With Traumatic Brain Injuries.”

LEARNING OUTCOMES

You will be able to:

- take into account military culture, patient, and family perspective in treatment planning
- state some of the unique challenges facing veterans with brain injury and their family caregivers
- assess your role in ensuring coordinated, holistic patient care

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 75 minutes
Online conference dates: March 18–30, 2020; December 2–14, 2020
