Pediatric Voice Assessment

INTRODUCTION

This session focuses on the assessment of pediatric voice disorders, including techniques for successful laryngeal visualization with children, differential diagnosis of vocal pathologies in the pediatric population, acoustic/aerodynamic measures of vocal function, and implementing a multidisciplinary approach for evaluation and treatment.

This course is a recorded session from the 2020 online conference “Voice Evaluation and Treatment: Improving Outcomes for Children and Adults.”

LEARNING OUTCOMES

You will be able to:

- describe evaluation procedures for clinical assessment of voice disorders in children
- identify at least three strategies that can be used with children to increase compliance with evaluation techniques
- describe the importance of assessing pediatric voice disorders through a multidisciplinary team approach

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 77 minutes
Online conference dates: April 22–May 4, 2020; August 5–17, 2020
End date: April 22, 2025

To earn continuing education credit, you must complete the learning assessment on or before April 22, 2025.

This course is offered for 0.1 ASHA CEUs (Intermediate level, Professional area).
