Treatment of Pediatric Voice Disorders

INTRODUCTION
This session presents an approach to voice treatment and training for children that uses age-adapted play and emphasizes vocal function as opposed to conservation. The speakers discuss the science and data behind the approach, as well as practical issues and strategies for clinical service delivery.

This course is a recorded session from the 2020 online conference “Voice Evaluation and Treatment: Improving Outcomes for Children and Adults.”

LEARNING OUTCOMES
You will be able to:
- explain basic science foundations of a new approach to pediatric voice therapy
- discuss novel approaches to voice hygiene for children
- use specific techniques based on a novel approach to voice therapy for children

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 70 minutes
Online conference dates: April 22–May 4, 2020; August 5–17, 2020
End date: April 22, 2025

To earn continuing education credit, you must complete the learning assessment on or before April 22, 2025.

This course is offered for 0.1 ASHA CEUs (Intermediate level, Professional area).
