# Diagnosing Autism Spectrum Disorder: The SLP's Role

## INTRODUCTION

This webinar will identify and discuss specific early pre-verbal, verbal, and social features of autism spectrum disorder (ASD) and common co-occurring factors. The speaker will explain the importance of differential diagnosis of ASD – including the role of the SLP in the process – and discuss ASD-specific assessments and best practice evaluation methods.

### LEARNING OUTCOMES
*You will be able to:*
- state communicative and social features of ASD
- identify methods to assess communication and social characteristics
- select and administer ASD-specific assessments and interpret the results

## PROGRAM HISTORY and IMPORTANT INFORMATION

**Live webinar:** Wednesday, March 11, 2020
2:00–4:00 p.m. Eastern time
(*1:00 p.m. Central time, noon Mountain time, 11:00 a.m. Pacific time*)
