Management of Pediatric Aerodigestive Disorders

INTRODUCTION

This webinar will explore various aspects of working with pediatric patients with complex aerodigestive disorders. The speaker will discuss the developmental progression to oral feeding, implementing safe feeding plans, weaning from gastrostomy tube feedings, and working within a multidisciplinary team.

LEARNING OUTCOMES

*You will be able to:*

- Explain the role of GERD on oral feeding progression
- Incorporate findings from videofluoroscopy to determine safest diet level
- Compare types of thickeners to use in patients under 1 year of age
