Genetic Disorders and Swallowing: A Showcase of Pediatric Disorders

INTRODUCTION

This session—a recorded session from ASHA’s 2020 Health Care Connect online conference—provides an overview of prevalent genetic disorders with an emphasis on pediatric feeding and swallowing complications. The speakers highlight currently available research and review best practices in assessment and intervention, including the use of videofluoroscopic swallow studies to underscore common swallowing deficits.

LEARNING OUTCOMES

You will be able to:

- Explain feeding and swallowing patterns commonly observed in children with a variety of genetic syndromes
- Identify risk factors in particular populations that warrant instrumental swallowing evaluations

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 91 minutes
Online conference dates: July 8–20, 2020
End date: July 8, 2025

To earn continuing education credit, you must complete the learning assessment on or before July 8, 2025.

This course is offered for 0.15 ASHA CEUs (Intermediate level, Professional area).
