Cancer Management in Acute Care Settings

INTRODUCTION

This session—a recorded session from ASHA’s 2020 Health Care Connect online conference—discusses cancer basics, treatment options, and their functional impacts as they relate to swallowing and cognitive-communication. The speakers discuss common referrals in acute care oncology settings and describe an algorithm for clinical decision-making.

LEARNING OUTCOMES

You will be able to:

• Use an oncology-specific algorithm to collect case history and relevant details from chart reviews and patient interviews in acute care settings
• Use case histories and interviews to apply algorithms for clinical decision-making in acute care oncology settings
• Use an algorithm for clinical decision-making to manage expected deficits in various clinical scenarios in acute care oncology

PROGRAM HISTORY and IMPORTANT INFORMATION

Recording length: 108 minutes
Online conference dates: July 8–20, 2020
End date: July 8, 2025

To earn continuing education credit, you must complete the learning assessment on or before July 8, 2025.

This course is offered for 0.15 ASHA CEUs (Intermediate level, Professional area).
