Select Papers From the 47th Clinical Aphasiology Conference

INTRODUCTION

This journal self-study includes select papers that were presented at the 2017 Clinical Aphasiology Conference in Snowbird, Utah. The articles reflect the wide array of topics presented on aphasia treatment, tools, and outcomes. Also included is an article that ties ideas from the conference keynote to research in communication disorders. Clinicians can expand their knowledge by learning about the current state of aphasia research.

LEARNING OUTCOMES

You will be able to:

- discuss how the results of animal research on enriched environments inform research on communication in people with aphasia
- describe novel issues related to established treatments, such as Semantic Feature Analysis and Response Elaboration Training
- explain the impact of treatment considerations, such as speed-accuracy trade-offs, and communication modalities on language comprehension and expression in people with aphasia
- discuss new research findings affecting narrative and discourse assessment and treatment
- explain how cognitive rehabilitation can be enhanced to provide more benefit to young adults with brain injury

CONTENTS

Select Papers From the 47th Clinical Aphasiology Conference

A Large-Scale Comparison of Main Concept Production Between Persons With Aphasia and Persons Without Brain Injury, by Sarah Grace Hudspeth Dalton and Jessica D. Richardson, published in American Journal of Speech-Language Pathology .......................................................... 28 pages

The Intensive Cognitive-Communication Rehabilitation Program for Young Adults With Acquired Brain Injury, by Natalie Gilmore, Katrina Ross, and Swathi Kiran, published in American Journal of Speech-Language Pathology ... 18 pages

PROGRAM HISTORY and IMPORTANT INFORMATION

Articles originally published in American Journal of Speech-Language Pathology

Start date: July 10, 2019
End date: July 10, 2022

To earn continuing education credit, you must complete the test with a passing score on or before July 10, 2022.
