Current Issues in Dysphagia Management

INTRODUCTION

This journal self-study emphasizes clinical decision-making in swallowing and dysphagia management. The articles focus on using data to make clinical decisions, finding noninvasive ways to screen healthy adults, and patient-reported side effects and tolerability of a specific assessment technique.

LEARNING OUTCOMES
You will be able to:
• discuss how data can be used to identify knowledge gaps, aid clinical decision-making, and possibly classify types of dysphagia
• explain ways to effectively screen healthy older adults for swallowing impairments
• describe the potential benefits and drawbacks of pharyngeal manometry

CONTENTS

PROGRAM HISTORY and IMPORTANT INFORMATION

Articles originally published in ASHA’s scholarly journals

Start date: September 16, 2019
End date: September 16, 2022

To earn continuing education credit, you must complete the test with a passing score on or before September 16, 2022.

To see if this program has been renewed after this date, please search by title in ASHA’s online store at www.asha.org/shop.

This course is offered for 0.3 ASHA CEUs (Intermediate level, Professional area).
