## **Audiology Assistant Education Modules**

### **INTRODUCTION**

---

Audiology assistants who want to become ASHA-certified and hold the C-AA credential must meet the requirements set forth in the Standards for Audiology Assistants Certification. This 10-module set meets the requirement for Eligibility Pathway 2. The modules included in this set are:

Module 1: Overview, and Rules and Regulations

Module 2: Scope of Practice/Roles and Responsibilities

Module 3: Audiology Basics

Module 4: Providing Patient Care

Module 5: Maintaining the Audiology Clinic

Module 6: Ethics

Module 7: Hearing Loss and Prevention

Module 8: Amplification and Device Maintenance

Module 9: Professional Practices in Health Care and Educational Settings

Module 10: Communication, Collaboration, and Teaming
